LAKSHMIPAT SINGHANIA ACADEMY
12-B ALIPORE ROAD, KOLKATA 700 027

Dear Parents,

The school discourages forming whatsapp groups among parents because it is found to be adding on to the stress levels of the children. They get unduly panic stricken and a lot of miscommunication results.

If, in case you have allowed your wards to form such groups, please ensure that they post the contents responsibly and not press the panic button every now and then.

It is for the sake of convenience that such apps are to be used and not misused causing confusion. So please help your children in being judicious users of technology and what it has to offer.

Also, parental role entails monitoring the whereabouts and dress code of their children in order to avoid any untoward incident. If they are under vigilance and monitoring; and with parental supervision as to who they associate with, in other words – their friends, a lot of damage may be prevented.

They are young and need our guidance. We should constantly train them to be disciplined while enjoying adequate amount of freedom. Support and good communication with their elders at home will help them in exercising the right choices in every aspect of their daily lives.

We look forward to your constant support.

Thanking you,

For **LAKSHMIPAT SINGHANIA ACADEMY.**
